

Is your house cold? Are your fuel bills too high? Do you want to SAVE MONEY AND KEEP WARM We can help with.....

Retrofit Advice - independent advice and support for modifying and upgrading your property to make it warmer

Healthy Homes for Wellbeing – free and impartial advice for all households including lower income and tenants

**Come along to the ECO Hub Sidmouth in the Library
on January 25th from 11am to 1 pm**

Please drop in and speak directly to our friendly ECOE advisers

EcoE Advice is a local charity providing independent energy and money saving advice and practical help for households in Exeter, Torbay, East Devon, Mid Devon and Teignbridge.

We aim to cut Carbon Emissions for a sustainable future by providing impartial energy advice working with Climate Action Partnership Sidmouth (CAPS) to reach more people in Sidmouth.

Through our organisation we are able to help people with their energy efficiency whatever their circumstances. From support with bills and grants access, through to advice for renovation works. Whether a tenant, a homeowner or a landlord we can provide advice.

We can, in most circumstances, arrange a free visit to you in your home to discuss your circumstances. Delivered by a qualified Domestic Energy Advisor.

For more information, and to sign up visit <https://www.ecoe.org.uk/retrofit-advice/> (or use QR code)
